Kolkata, West Bengal | +91 9874228785 | dassourasish1234@gmail.com | github.com/sourasish423

EDUCATION

St. Thomas' College of Engineering and Technology
Bachelor of Technology in Electronics and Communication Engineering | 2021-2025 | CGPA: 6.94

Future Campus School
All India Senior School Certificate Examination (Class 12) | 2020-2021 | Percentage: 67.5%

St. Stephen's School
All India Secondary School Examination (Class 10) | 2018-2019 | Percentage: 72%

TECHNICAL SKILLS

Frontend: React.JS, React Native, HTML5, CSS3, JavaScript (ES6+), Responsive Design, Component Architecture

Backend: Node.JS, Express.JS, REST APIs, JWT Authentication, API Development, Middleware

Databases: MongoDB, MySQL, Database Design, Query Optimization, Data Modeling

Languages: JavaScript, Python, Java

Tools & Technologies: Git, GitHub, Vercel, Figma, Postman, Async Storage

Soft Skills: Problem-Solving, Analytical & Critical Thinking, Clear Communication, Teamwork & Collaboration, Adaptability

EXPERIENCE

Pitchmatter March 2026
Full Stack Developer (In Progress)

- Designed and built 15 REST API endpoints across 3 modules (Matchmaking, Connections, Followers) and adapted them for admin-side functionality
- Developed Matchmaking (7 endpoints), Connections (4), and Followers (4) covering applications, deal tracking, investments, and relationship management
- Audited Zynk.ing and CAPShield for usability and functional issues, and documented the Marketplace module end-to-end (wireframes, API docs, team presentation)
- Built responsive UI from Figma designs, including the Referral page, with cross-screen layout fixes

PROJECTS

Resume Analyser
Node.JS, Express.JS, Multer, pdf-parse, Gemini API, REST APIs

Live: resume-app-sandy.vercel.app | *GitHub:* github.com/sourasish423/Resume_analyzer

- Built a full stack resume analysis tool with PDF upload/parsing via Multer and pdf-parse
- Integrated Google Gemini API for contextual Q&A on parsed resume content
- Designed REST endpoints for uploads, text extraction, and AI-powered responses

Movie App
React.JS, TMDB API, REST APIs, Async Storage, Responsive Design

Live: react-movie-app-pied-pi.vercel.app | *GitHub:* github.com/sourasish423/react-movie-app

- Built a movie browsing platform using TMDB REST API with 500+ paginated results
- Added Async Storage for persistent favorites and optimized API call handling
- Built responsive, multi-screen component architecture with efficient data fetching
- Handled error states, loading states, and data transformation for a smooth UX
